

# *2007 - 2008 Best Siamese*

## *GC, BW, NW New Moon Lexington of Shimasu*

**Owner: Debbi Stevenson**

**Breeder: Georgia Headley**

GC, BW, NW New Moon Lexington of Shimasu (Lexie) is an incredible cat bred by a legendary breeder, Georgia Headley. Lexie was sired by GC Mulan's Teodorico of Shimasu, an import from Italy; her dam is beautiful blue point, CH New Moon Misty Morn.

As with many of Georgia's cats, Lexie continued to improve all throughout her show career. Originally Georgia liked her personality better than her type, although she did concede that Lexie had a lovely head. As she grew older though, her body lengthened and lengthened, her head kept its lovely structure and balance, and Lexie's personality garnered her lots of attention in the show ring. She loved to play on the table, and her favorite judges were those who spent time entertaining her.

While Lexie's win is definitely due to her superior type and playful personality, it wouldn't have been possible without the solid genetic background of her ancestors. Showing any cat for a show season is stressful, but a Siamese female is one of the most difficult. Lexie was always in condition, never ill and came into heat every 5-6 weeks, all of which made this possible. The credit is all Georgia's who is the "breeders' breeder", valuing the breed and the pedigree before anything and putting together the lines that resulted in this wonderful cat, our Best Siamese for 2007-2008.
